KEEP THE FOREST GREEN -

A TIMELY WARNING.

THIS FOREST FIRE CAUTION WAS
HANDED TO YOU BY
AN ENROLLEE OF THE
CIVILIAN CONSERVA-
TION CORPS

To improve, develop, and protect the natural resources of this country for all Americans is the earnest purpose of the Civilian Conservation Corps. The forests are a very important part of America's Bank of Natural Wealth.

This Enrollee asks you to help him keep the forests green by *thinking* to do these simple things:

1. Put out every lighted match, cigarette, or cigar butt before throwing it away.
2. Leave no live sparks from your campfire—drown it out with plenty of water before leaving.
3. Leave a clean camp and a clean record, so you will be welcomed again!
4. Report all fires you see to the nearest Warden, Ranger, or checking station at once.

Only by everyone helping can the number of man-caused forest fires be reduced.

Thanks for your help.
